rawatshubam269@gmail.com | 9711071504 | Linkedin | Portfolio | Product Lens (Youtube)

PROFILE

Software Developer with 4**+** years of experience building **user-centric** web applications using **React.js**. Passionate about **Artificial Intelligence**, **Generative AI**, **LLM-powered applications** that solve real-world problems. Strong understanding of **AI product lifecycle**, **prompt engineering**, and **agile product development**.

EDUCATION

BA (Bachelor of Arts)
DU SOL | 2015–2018

LANGUAGE

- **English** | Level : Fluent

CERTIFICATIONS

Responsive Design Course (2022)

Vidhya Mantra | Beginner Program
Completion Date - March 21, 2022
Certificate Link

Advance Javascript Course (2022)

Vidhya Mantra | Advance Fellowship
Completion Date - May 22, 2022
Certificate Link

Advance Frontend Course (2022)

CRIO | Advance Fellowship Program
Completion Date - Sep 12, 2022
Certificate Link

CORE SKILLS

- **Language :** Javascript
- **IT Construct :** Data Structures & Algorithms, Operating Systems.
- **Frontend Development :** HTML5, CSS3, ES6+, Typescript, DOM Manipulation, AJAX, Async JS, APIs, REST APIs, CRUD Operations, Redux.
- **Backend Development :** Nodejs, Expressjs
- **Database & Management :** MongoDB, Redis, Query Optimization, indexing.
- **Toolstack :** VsCode, Psotman, devtools, github, netlify, Jira, Confluence, Linear , Notion, ChatGPT, Claude, Gemini, Microsoft copilot, perplexity, notebookLM, Mixpanel, Amplitude, GA4, Figma, Miro, Google Sheets & Docs.

SELECTED PROJECTS

AI Interview Coach | Lovable · Supabase · LLM API (LINK | CASE STUDY)

- Built an AI-powered interview coach that personalizes mock interviews using resumes, JDs, roles, and experience.
- Designed adaptive AI interviews with context-aware follow-up questions based on candidate responses.
- Developed a structured evaluation framework to score relevance, clarity, depth, problem-solving, and communication.
- Defined product & AI metrics including completion rate score, question & evaluation quality.

Natural Language Product Search | Lovable · LLM (LINK | CASE STUDY)

- Built an AI-powered search MVP that converts natural-language shopping queries into structured product intent and retrieves relevant fashion products.
- Designed intent extraction for category, price, color, fit, material, season, and pattern, with natural-language normalization.
- Implemented hard category constraints and deterministic retrieval to reduce irrelevant results and improve search precision.
- Defined AI/product metrics including intent accuracy, zero-result rate, search relevance, refinement rate, and latency.

AI Knowledge Assistant | RAG-Based Enterprise AI (LINK | CASE STUDY)

- Designed and built a RAG-based internal knowledge assistant for querying organizational documents across HR, Product, Support, Sales, and Engineering.
- Implemented grounded responses with source citations, freshness indicators, and conflict detection to improve AI reliability and user trust.
- Designed the end-to-end knowledge ingestion → retrieval → generation → citation workflow and translated enterprise knowledge-management requirements into an MVP.

RELEVANT WORKING EXPERIENCE

Webreinvent Pvt. limited — **Aug,2024 - Aug, 2026**

- Working with the wider development team.
- Manage website design, content, and SEO Marketing, Branding and Logo Design

EZ Works — **April,2022 - July,2024**

- Working with the wider development team.
- Developed scalable and responsive e-commerce web application using **React.js**.
- Integrated **REST APIs** for dynamic data.
- Collaborated with backend and design teams for seamless delivery
